# Water Treatment

# Pumping

## we are the water treatment specialists!

Dowdens Pumping & Water Treatment specialise in the design, manufacture and service of skid-mounted and containerised 'PLUG & PLAY' water treatment and sewage treatment plants, complete with on board electrical wiring and controls. **THE PERFECT SOLUTION!**

**We have in-house draftsmen with 3D and CAD capabilities, allowing us to design, commission and build high-quality tailor made solutions!**

## servicing

Dowdens Pumping & Water Treatment offer breakdown and emergency call out servicing, routine servicing and full scheduled maintenance service programs for all your water treatment and pumping equipment. With fully equipped service vehicles and industry trained staff, we have the experience you need to achieve maximum efficiency and productivity - **SAVING YOU TIME AND MONEY!**

**SEWAGE & WATER TREATMENT:** *Our team of specialist engineers, draftsmen and trades people custom design and build treatment plants for a wide range of industries and applications. We offer an unmatched selection of innovative Sewage & Water Treatment Systems, providing on-going Service and Maintenance arrangements for each of our client's treatment infrastructure*

**REVERSE OSMOSIS:** *Specialised commercial / rural / residential systems used for the efficient reduction of total dissolved solids [salts, sediments] from your water supply*

**WATER SOFTENERS:** *Do you suffer from hardness in your home water supply? Removal of hardness mineral scale [calcium, magnesium] via an energy saving Dowdens brand water softener guarantees better use of energy, lower running costs and maintenance, improved laundry and dish washing plus greater protection for all your water contact appliances*

**MEDIA / CARTRIDGE FILTERS & HOUSINGS:** *Iron Filters - for removal of iron, manganese & hydrogen sulphide; Carbon Filters - for reduction of chlorine, chloramine, taste & odour; Sediment Filters - for removal of dirt, silt, precipitated iron & organic matter; Neutralising Filters - for neutralising low pH (acidic) water; Polyspun, Pleated, String Wound, Granular Cartridges - for removal of dirt, silt, precipitated iron, organic matter, chlorine, chloramine, taste & odour*

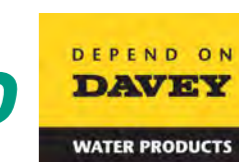

**stocking and servicing major brands:** PURION, MIRACELL, AUTOTROL, CLACK, FLECK, WEDECO, SIATA, STENNER, ACROMET, MATTEN, WAVE CYBER & STRUCTURAL FIBRE.

## LARGEST PUMP SPECIALISTS IN QLD

## we know pumps

Whether you require a pump for mining, commercial, medical or agricultural purposes, we are the largest pump specialists in Queensland. Established in 1973, and with over 180 employees we have the industry knowledge and experience you need to get the job done!

## why not a purpose built pump system?

We have experienced pump engineers servicing the commercial, industrial and agriculture industries. Dowdens Pumping & Water Treatment offer full **DESIGN, INSTALLATION, COMMISSIONING and SERVICING** of both existing and advanced technology pumps, including but not limited to:

- Submersible Bore Hole Pumps - 3" up to 12" with a wide range of varying flows
- Helical Rotor Pumps - a good option for fittings to diesel engines for a range of applications
- End Suction Centrifugal Pumps - used for pressure delivery or transfer applications
- Diesel Pump Sets - supplied with a variety of different pumps to suit a variety of applications

Dowdens Pumping & Water Treatment always select a suitable pump for your application to maximise the service life of the pumping equipment and minimise the power usage and downtime of the unit. Dowdens supply a wide variety of brands, with our focus being selecting a pump to best suit your specific requirements.

## we service all types of pumps

Dowdens Pumping & Water Treatment are experts in diaphragm pump and all other major pump brand repairs including Grundfos, Flowserve, Ebara, Roto, Davey, Onga, Tsurumi, Lowara and Wilo.

**Dowdens Pumping & Water Treatment are the ONLY authorised distributor and repair agents for WILDEN air-operated diaphragm pumps in QUEENSLAND and the NORTHERN TERRITORY**

Dowdens Pumping & Water Treatment are MAJOR distributors of Wilden, Wilo, Kelly & Lewis, Grundfos, Flowserve, Ebara, Stenner, Lowara, Regent, Davey, Onga, Southern Cross and Roto pumps, plus many more. Meaning we offer competitive pricing and the resources needed to ensure that we match the right pump to your problem!

# WE ARE TRUE SOLAR PUMPING SPECIALISTS!

With power becoming more expensive each year throughout rural and remote areas the need to reduce overall running costs on the farm is a must! Dowdens provide affordable and efficient solar pumping solutions to help combat ever increasing electricity prices. From stock watering systems through to large scale broad acre irrigation our dedicated sales, installation and service crews have you covered. All systems are expertly designed to suit any site specifications, utilising a variety of both engine and electric pump units. Dowdens Pumping & Water Treatment have a huge range of products and solutions to facilitate your next solar pumping project. The solar pumping systems we offer not only deliver substantial power savings, but also considerable time savings by eliminating having to manually turn on or refuel your pumps. The systems have in built technology allowing them to be operated / monitored remotely and run in conjunction with a generator in the event more water is needed during the night.

**We have access to leading brands and expertise to get the most out of your solar system:**

- Increased water use efficiency
- Efficient energy use
- Reduced labour time
- Increased capital
- System effectiveness
- Environmental sustainability
