

SOLAR PUMPING CAPABILITIES

WE ARE TRUE SOLAR PUMPING SPECIALISTS

SALES, INSTALLATION & SERVICE

With power becoming more expensive each year throughout rural and remote areas the need to reduce overall running costs on the farm is a must! Dowdens provide affordable and efficient solar pumping solutions to help combat ever increasing electricity prices. From stock watering systems through to large scale broad acre irrigation our dedicated sales, installation and service crews have you covered.

DESIGN TO SUIT YOUR REQUIREMENTS

All systems are expertly designed to suit any site specifications, utilising a variety of both engine and electric pump units. Dowdens Pumping & Water Treatment have a huge range of products and solutions to facilitate your next solar pumping project.

POWER SAVINGS

The solar pumping systems we offer not only deliver substantial power savings, but also considerable time savings by eliminating having to manually turn on or refuel your pumps. The systems have in built technology allowing them to be operated / monitored remotely and run in conjunction with a generator in the event more water is needed during the night.

BENEFITS OF SOLAR

- Increased Water Use Efficiency
- Efficient Energy Use
- Reduced Labour Time
- Affordable Capital Outlay
- Zero Fuel Costs
- Zero Power Usage
- System Effectiveness
- Environmental Sustainability
