HIGH POWERED TWIN STAGE SELF PRIMING PUMP

APPLICATION

Ideal for firefighting, tanker to tanker water transfer, high head general water transfer, sheep jetting, irrigation, boom spraying and travelling irrigators.

FEATURES & BENEFITS

- **Driven by a 270cc or 389cc Honda GX/E engine** fitted with an electric start.
- **Heavy duty wide vane impeller** or longer life, improved performance and easier cleaning in the case of blockage.
- **Twin impeller design** provides the versatility of high flow rates with strong pressure.
- **Thrust balanced impeller design** to extend engine life.
- **Pump casing, diffusers and impellers manufactured from quality corrosion resistant marine grade aluminium** for long life.
- **NEW 3 way discharge port for easy installation with a choice of plumbing sizes.** The NEW 3 way discharge is easily adapted to the old 3 way outlets.
- **Polyester coated pump casing, exterior and interior,** for added corrosion resistance.
- **Self priming from 6m** for more versatile installation options.
- **Patented floating impeller neckrings front and back.** The front neckring helps improve pumping efficiency, the back neckring helps extend seal life and dramatically reduce engine wear.
- **Huge 1½" priming port** for extra quick filling.
- **Large drain port with bayonet fit plugs.** Plugs have safety retention system.
- **Low-oil protection on all models** - engines won't start or run if oil level is inadequate, thus protecting your engine.
- **All engines feature cast iron cylinder bore** for long life.
- **Electric starter (12Vac 30Amp hour battery and leads required) and recoil starter fitted,** ensures a choice of starting methods, even if the battery is flat or removed.
