This exploded view diagram illustrates the assembly of a mechanical unit, likely a pump or motor. The components are numbered as follows:

- 380**: A circular component with internal wiring, shown in a separate circular inset.
- 47**: A small cylindrical part within the 380 assembly.
- 528**: A cable or hose with a connector.
- 51** and **49**: Small electrical or fluidic connectors.
- 41**: A large, ribbed circular component, possibly a fan or impeller.
- 39**: A smaller circular component with a central shaft.
- 444**: A bracket or support structure for the 39 component.
- 562**: A long, thin rod or pin.
- 217**: A circular component with a central shaft, appearing twice in the assembly.
- 294**: A coiled spring.
- 28**: A circular component with a central shaft, appearing twice in the assembly.
- 25**: A circular component with a central shaft, appearing twice in the assembly.
- 166**: A circular component with a central shaft.
- 201**: A circular component with a central shaft.
- 24**: A circular component with a central shaft.
- 25**: A circular component with a central shaft, appearing twice in the assembly.
- 285**: A circular component with a central shaft.
- 276**: A circular component with a central shaft.
- 273**: A circular component with a central shaft.
- 371**: A circular component with a central shaft.
- 373**: A circular component with a central shaft.
- 372**: A circular component with a central shaft.
- 384**: A circular component with a central shaft.
- 79**: A small circular component.
- 21**: A circular component with a central shaft.
- 286**: A circular component with a central shaft.
- 276**: A circular component with a central shaft.
- 273**: A circular component with a central shaft.
- 73** and **71**: Small circular components.
- 400**: A circular component with a central shaft.
- 9**: A circular component with a central shaft.

The diagram shows the assembly sequence from the base housing (384) up to the top cover (380). Dashed lines indicate the alignment and assembly path for each component.
